MEMBERSHIP APPLICATION

The **Pacific Aircraft Maintenance Engineers Association** is a non-profit association comprised of aircraft maintenance engineers and associated professionals. Some of these individuals volunteer to serve on the Board of Directors, as Chapter Executives and on National Committees. **PAMEA** is a member of the Canadian Federation of AME Associations (CFAMEA). Locally, training seminars and updates are provided to members.

Registration rates are reduced for members attending our annual Symposium and Trade Show. **PAMEA** members also benefit from update training, acceptable to Transport Canada, offered at each Symposium.

A new member receives a certificate, membership card, hat, pin and miscellaneous items as well as free subscriptions to Air Maintenance Update Magazine and The Pacific AME Newsletter.

The need for membership and support has never been greater. You can help us sustain a strong voice in Ottawa as our profession is subject to changes and revisions. Please join and be part of our Association.
